

- Jog control on 3 axis
- Compact, ergonomic case design
- LCD display for operation and limits status
- 10-speed operation

iNetVu 3000C Hand-held Manual Controller

iNetVu 3000C Hand-held Manual Controller

The new **iNetVu® 3000C Hand-Held Manual Controller** has the same look and feel as a video game controller. It allows you to operate the platform without having the auto-pointing controller or PC attached to it. In addition, this controller makes it possible to operate the iNetVu® mobile antenna at variable speeds.

A useful tool for conducting demonstrations, installations, testing or for emergency backup situations.

Features

- Jog control on 3 axis
- Compatible with all iNetVu® Mobile Platforms
- Ability to raise, stow, and move the iNetVu® Mobile Platform during demos, installations, trouble-shooting etc.
- Compact, ergonomic case design
- LCD display for operation and limits status
- 10-speed operation
- Directly attachable to any 12VDC / 24VDC power supply
- Enhanced operation with feedback control
- Standard 2 year warranty
