■ Wiring diagram

■ How it works

- ① Connect the AC adapter to the product with the necessary wiring as shown above. At this time, "boot" is displayed on the front of the product and "ON" is displayed.
- ② The main menu will be displayed. You can watch the input video on the TV through the output terminal.
- ③ Select one of the four inputs. Press the Record button to start recording.
- ④ Recording File can be saved in TS or MP4 format.
- ⑤ The input resolution supports 480i / 60Hz, 480p / 60Hz, 720p / 60Hz, 1,080i / 60Hz and 1,080p / 30Hz. The output resolution supports 720p / 60Hz and 1,080i / 30Hz .
- ⑥ The output resolution of the devices (STB, PS3, PS4, Blu Ray and PC) connected to this product should be set to "Auto" or 1,080p / 30Hz or less.
- ⑦ Safely remove the external USB device
When disconnecting the USB storage device from the main unit, perform the function called "USB safe removal" and remove it. It must be safely removed even when disconnected from the PC. If you do not use the "Safely Remove" function, the file may be damaged and the USB device may not be recognized.
- ⑧ The menu language supports Japanese and English.

■ Features
