

OVERVIEW

The Q-Lite™ half-width compact satellite modem is provided in 9.5-inch & 10.5-inch chasses.

Two 9.5-inch chasses can be fitted side-by-side in a standard 19-inch rack, saving on airconditioned hub space. Its small size and low power consumption also make it ideal for portable communications and comms-on-the-move.

Advanced Bandwidth-Efficient Features

The Q-Lite™ is small in size but big on features!

Paired Carrier+™, our recently enhanced carrier overlap technology, overlays Tx and Rx carriers, reducing required satellite bandwidth by 50%.

DVB-S2X is between 20% and 60% more bandwidth efficient than its predecessor, DVB-S2.

Bandwidth-saving IP features include ACM, acceleration and header and payload compression.
