

Product features

- Excellent linearity and flatness
- Extremely good return loss
- Compact construction, lower power consumption
- WDM option to achieve single fiber bi-directional transmission
- Multi-communications transmitting wavelength and power optional

Available Models

- F-MININODE-1R Receiver only 1 fiber input CATV Output
- F-MININODE-1RT Receiver and Return Path Transmitter single fiber
- F-MININODE-2RT Receiver and Return Path Transmitter 2 fibers
