

ZeeVee 1080p/i Composite Video Modulators

2 or 4 Channels of Digital High Definition in a 1RU Chassis

HDbridge2000 SERIES

Combine hundreds of digital channels and
distribute them over a single existing coaxial cable!

HDb2620
2 Input HD Modulator

HDb2640
4 Input HD Modulator

ZeeVee encoder/modulators convert video sources such as satellite receivers and media players into digital cable channels that can be **broadcast over existing coaxial cabling** to an unlimited number of HDTVs.

By utilizing the HDTV's built in tuner, ZeeVee modulators **completely replace the need for matrix switches, home run wiring and any devices at individual TVs.**

1080p/i HD Family Members

Designed especially for high channel density environments where rapid deployment, advanced management and compatibility are critical — you can practically feel the confidence that's built into every unit!

1080p/i performance in 4 or 2 channel configurations.

- Breakthrough Cable Management — for clean wiring and easy diagnostics
- Analog and Digital Audio — for maximum flexibility
- Component Video — for HD input

ZeeVee manufactured equipment allows distribution of HD digital signage and HD programming sources using existing broadband coax cabling in facilities not required to encrypt content. Use in other facilities is prohibited.

Rapid Deployment:

- Optimized Rack Space
- Set All Channels at Once
- Consolidated Cabling

Compatibility:

- Use Existing Coaxial Cabling
- Compatible with any HDTV
- MPEG2 Video and AC3 Audio Encoding

Advanced Management:

- Maestro Headend Management Software
- Front Panel Color LCD
- Local and/or Remote Configuration
