

Multicom – MUL-HRPR-4B – Optical Return Path Receiver

zMulticom – MUL-HRPR-4B – Optical Return Path Receiver

- Wide optical Input Range 1200 – 1620 nm
- Typical +25dBmV adjustable RF output for each of the 4 ports
- 5 – 200MHz return bandwidth
- Four receivers in 1RU unit

- Wide optical input range and low noise design allows error free detection down to -90dBm
- Configuration and status monitoring on the easy-to-view backlit front panel display
- Optional IntegratedSNMP network interface
- Housing temperature is displayed, monitored, and controlled by the micro-processor
