

Millimeterwave circular polarization

circular polarization that has an excellent characteristics.

Feature :

- Dualband circular polarizations
- Good isolation

Application :

- Mobil satellite communications,etc

Technical Specifications :

Tx channel(vertical polartion) 20.4~22GHZ

Rx Channel(horizontal polartion) 30.2~31.8GHZ

VSWR(dB) <1.5

Passband isolations >85dB

Axial ratio for circular polarization <2dB

Mechanical Specifications :

Size(mm) 130*70
