

Access DIRECTV HD and standard programming with the Trav'ler SWM (Single Wire Multi-switch) Slimline Antenna. Built tough, this fully automatic, one-button on/off antenna features the unique ability to receive programming from more than one satellite at a time. Watch any program on any TV at any time in your RV, just like at home. Great for families or RVs equipped with multiple TVs where simultaneous viewing is desired. Compatible with enhanced DVR capabilities.

Special SL3-SWM LNB allows one coax entry to RV that can be split for multiple receivers. Only 9/4"H in travel position. 44"L x 34"W. DIRECTV HD receiver and programming package required for HD viewing (both sold separately). Made in USA.
