

C-Band Dual Focus Scalar Ring

Dual scalar ring for prime focus C-Band satellite dish. Use it to mount 2Feeds or LNBFs on a single dish.

Possible applications include reception from 2 adjacent satellites using a single stationary dish or reception of both linear and circular satellite signals on a motorized dish by installing two different Feeds

Other possible applications include simultaneous reception of C-band and Ku-band signals with negligible signal attenuation.

FEATURES

- Precision cast-aluminum construction

INCLUDES

- Dual Focus Scalar Ring
- Mounting Screws
