

The RAYZAR Amped is perfect for Pop-up Campers, RVs, Tailgating, Trucking and more! Up to twice the range with only a 1db noise figure which eliminates overpowering when close to the tower. Power by plugging the USB cable into your television or use the 110V or 12V adapters. The RAYZAR Amped features a 0.43 millimeter ultra thin antenna element. The RAYZAR is super light too at just 5.44 ounces and has a small footprint of 13 x 12 inches.

### **Designed For The Mobile Lifestyle**

The RAYZAR Amped is perfect for Pop-up Campers, RVs, Tailgating, Trucking and more!

- Extra long coax allows for optimal placement.
- Quick release suction cup clips make adjustments a breeze.
- Permanent installation not required, no roof space necessary.

### **Quick 4 Step Setup**

The RAYZAR Amped is easy to set up and reposition.

- Connect to "antenna in" on the back of any digital-ready TV.

- Power up by plugging in the low noise amplifier.
- Place the antenna on a window or wall, or lay it flat.
- Perform a channel scan and watch TV!

## Free HDTV Channels

Experience free local TV channels without the high monthly bills with the Winegard RAYZAR Amped.

- Save an average of \$1,000 per year!
- Access free over-the-air channels to watch top-rated shows, live.
- True HD quality, better than cable.
